**AUTOGRAPH A O O**

This issue of the BULLETIN is largely devoted to a list of Members and Sustaining Associates of the Society. Addresses given are those of record as of September 1, 1955. While we have done our best to make the listing accurate there are doubtless errors of commission and of omission. A few addresses are known to be wrong but letters to the members concerned have not been answered. Please write us if your address or that of someone you know is not correct.

The entomologists in Canada are progressing very well with their plans for the Tenth International Congress of Entomology to be held in Montreal on August 17 to 25, 1956. See their announcement in the June BULLETIN. It is hoped that you are planning to attend.

Paul Oman and his committee are developing a very good program for the Cincinnati meeting. See the synopsis in this BULLETIN. By action of the Governing Board a program of the annual meeting will be available gratis to each registrant at the meeting. Members not attending may obtain a copy postpaid from this office for 75 cents payable with your order. Stamps are acceptable.

The Committee on Student Membership, J. C. Gaines, C. W. Kerns and R. H. Painter, Chairman, made certain recommendations to the Governing Board. The Board adopted these recommendations and the following rules now apply to student membership.

1. Only students in residence in recognized Colleges and Universities in Canada and the United States and its Territories are eligible for student membership.

2. A student is defined as a junior, senior, or graduate student who has had one or more courses in Entomology and is taking at least one-half full schedule on a school year basis as defined by his College, and with a major in Entomology, Zoology, or Biology.

3. A student must be certified as meeting these requirements by the Head of the Department concerned or the student's major instructor. The certifier must be a full E. S. A. member in good standing. This must be done both at the time of admission and at each renewable date. Postdoctoral fellows or students are not eligible for student membership.

4. A maximum of 4 years of student membership will be permitted.

5. A full member may not change to student status.

6. The address of students will be that of the department and school from which he has been certified. A change from this address must involve either a change to full membership or not more than two recertifications during the period of student membership and involving other eligible schools.
